

A young woman with long dark hair is smiling and looking towards the camera. She is wearing a vibrant red halter-neck garment and a large, lush floral lei made of green leaves and bright red hibiscus flowers. She is holding a long, multi-strand necklace made of light-colored, irregularly shaped beads, which she is framing around her face with her hands. The background is a soft-focus view of a tropical landscape with green foliage and a distant mountain peak under a bright sky.

# OUR COMMITMENTS

---

We strive to protect the environment in which we operate, which constitutes the richness of the Polynesian islands; from lush mountains to unique underwater landscapes. In this spirit, we prioritize eco-responsible partners whenever possible.

We are committed to preserving our islands: energy savings, the «*'aite api parau* » initiative (= less paper) since 2021 with the elimination of vouchers and the digitization of most of our materials.

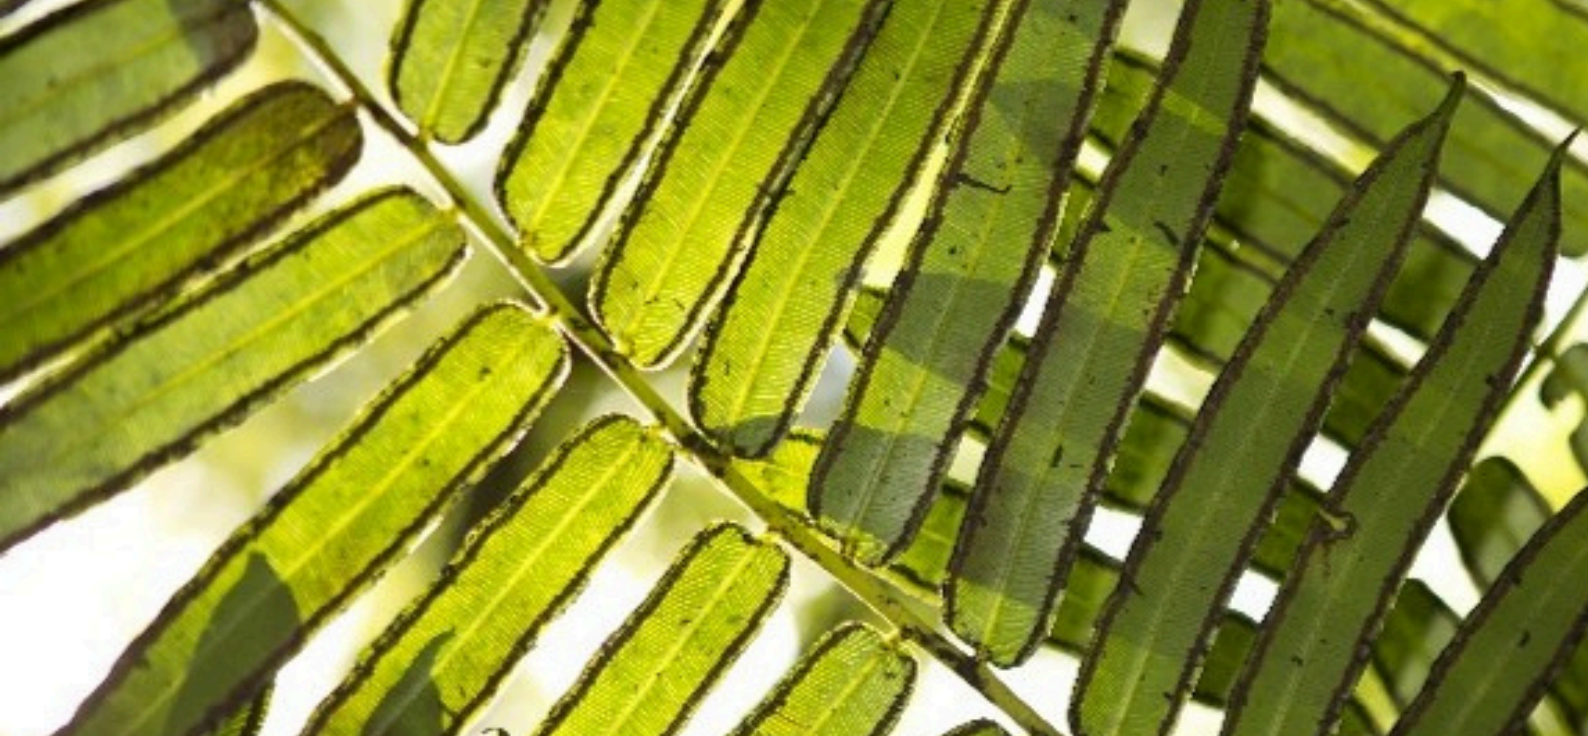

Our team is committed on a daily basis and involved in all types of operations: beach clean-ups, lagoon clean-ups, coral gardening...

**TAHITI TRAVEL EXPERTS** is also a proud partner of OCEANIA, a cetacean protect association based in Moorea. Each year, we donate over 4,000 euros to support their “Ocean Watch” project.

Effort continue, and we launched a comprehensive audit in 2023, which led to our recognition as a Travelife Partner in October 2024. This marks the first step toward full certification, reflecting our dedication to promoting responsible tourism.
