Features & Benefits

Custom Built 4x4

Our vehicle is purpose built for comfort, panoramic views, power, protection from the elements, whilst maintaining maximum fun and enjoyment. No other vehicle in Kintamani is purpose built for tourists.

Sustainable Cities & Communities

United Nations Global Goal number 11. We give \$15 from every Sunrise Sensation Tour to the Kintamani community. This goes towards local infrastructure including roads, education for farmers on the correct use of the land and more sustainable farming techniques, plus training all the guides in the region, not just our own guides.

Don't Trek for hours

Our Isuzu D-Max 4x4 is a 3.0Litre turbo diesel. This means we have one of the few 4x4's in the region capable of getting you within 400 meters of the peak. The maximum you'll trek is 470 meters.

The Best Qualified Guides

Both our guides are local celebrities, everyone knows them because they're the best. They're qualified, certified, and they're English is great.

Walking the Crater's Rim

We're the only tour company that offers walking around the rim of the crater as part of the tour. It takes an extra hour, however, it's really worth it. After you've seen a sensational sunrise, trek that little bit extra up a little higher to get to the crater rim and walk around here. Your extra efforts will be rewarded with steam coming from the ground, you'll see the other side of Kintamani with spectacular views of the caldera and farming, plus, if you're lucky, you get to experience walking through clouds.

Our Transfer Drivers

Our drivers, are great mates, have passable English, and are nice to our guests. Best of all 'they wait'. They pick you up from your hotel on time, you do your selected tour, and they wait. They don't sneak off and do other jobs whilst you're on your tour with your personal belongings in their vehicle. A bad transfer driver will be sneaking off doing other jobs, and your things could go missing. This will ruin your holiday. (Imagine if you lost your passport, your watch) Our drivers are 100% tried and tested trustworthy drivers. We pay our drivers to stay for the entire day, whether your tour is one hour, or 12 hours; they wait.

Private Tours

If you book the tour for just you, or you have five more people that are part of your crew, no strangers will be on your tour. We don't jam others in on the tour to make up the numbers. You've booked the tour; the tour is all yours. 1 – 6 people max. We did this to help with Covid. We also have a hand sanitiser dispenser mounted in the back as well. More importantly, you get to experience this tour with just your intimate group. People love this new tour design

Australian Owned, Local Guides.

Basically, this means. Australian level safety and attention to detail, with local knowledge from our top-level guides. The CEO of Expedition Bali is an X – Safety Manager for a mining company. Small fire extinguishers are inside the seating area, grip tape on the steps, medical kit on board, the vehicle is serviced at half the recommended intervals. The local guides live in the area and have done so their entire lives. They know Kintamani inside out and back to front.

Amazing Tour!

Have just come back from completing this tour in Bali, i did the Sunrise Volcano 4WD Tour and it was absolutely amazing and worth the early wake up. Would highly recommend this tour if your headed to bali, ... 🍌

"Super company, excellent guides, everything is organized at the highest level, I really liked the meeting of dawn, and of course how we rode jeeps on the sand and lava of the volcano Batur. Thank you so much guys for organizing such tours....." - [Ульяна Шафеева](#)

Mother Nature and her Mum!

"... They [his children] saw first-hand steam rising up from the top of the volcano, they saw the landscape that was left behind by lava being spread all over. Never before had I felt teaching science so fun, my children, my wife and myself had an unforgettable experience, thanks to the crew that took the extra time to answer our questions along the way ..." -

Amazing adventure

"The trip was amazing. Team of expedition Bali excellent. The guide was fun and support us all the way. Pictures of the top very beautiful. I like this adventure very much" - **Светлана С**

Sunrise Hiking Tour

"My boyfriend and I booked the sunrise hiking tour of Mt Batur with expedition Bali after seeing the reviews and their Instagram (check it out it's awesome!). From the get go expedition bali were extremely helpful and professional.

While my boyfriend is very fit and hikes regularly, I am the complete opposite and found it very challenging, however our jeep driver and hiker Wayan was amazing. Super supportive and considerate and got me to the top when I didn't think I could! The Views were amazing. ...The 4wd'ing aspect was fun and cut an hour off the hiking trip. Would definitely recommend and we will do more tours with expedition bali in the future :)" - **Hannah M – Adelaide, Australia**

3 x Bonus reasons to book with Expedition Bali Tours

All of our tours have a small unique gift. For example, on this tour we give you a hat with LED's to light your way. You know why? We do this more for practical reasons. It's dark when you first set off, because you're getting to the summit before the sun has risen, and we used to give out rechargeable torches. However, it can also get a bit slippery whilst hiking because loose dirt can shift beneath your feet; holding onto a torch losing balance and putting your hand down on a rock isn't fun if you're also holding a torch. We wanted to free up your hands. We created a memento you can keep and take with you back to your home country. The hats aren't cheap, and we have put our logo on the hat to remind you of where you first used the hats. They are yours to keep.

The other bonuses we do on this tour is what not many others will or can do. We take you to the as far as possible up the volcano (about 1300 metres up) in our custom built 4x4 so you trek less at 4.30am. Most other 4x4's in the area won't make it. Our third bonus is we offer to take you around the rim of the crater. Up here you'll see steam coming from the ground, the other side of the Mount Batur caldera, such as sand mining and the vegetable growers. If you're lucky, you'll also be able to physically walk-through clouds.

ACT NOW

We only have one 4x4, and tours book out up to 20 months in advance by travel agents, and people that know they are coming to Bali next year. Don't delay, please book the tour if you see an opening.

No Risk Policy
