4x4 Volcano Explorer Private Tour – FAQ's

Can you arrange a pickup from our hotel?

"Yes. We have bunch of great mates that all belong to one team. Their English is passable, they must all have currently registered vehicles and current drivers licences for our insurance to be effective. We keep copies on record of each driver, with expiry dates notes in our calendar with a 14 day reminder set up on each".

Should I wait for better pricing or last-minute deals?

"We don't do "last minute deals" and we don't adjust our pricing for high and low season."

There are 10 of us, can we all go?

"We take a maximum of six adults. This amount fits in our 4x4 the best."

Can I book on this particular date, a bit later?

"All of Expedition Bali Tours are private tours. We run one tour a day of each tour. Best you pick the date and time you want, and lock that in to avoid disappointment"

Do I have to be super fit?

"On our 4x4 volcano Explorer Tour, you'll only get out of our 4x4 to take photos and stretch your legs, so no you don't have to be super fit."

How do we know if your guides are really qualified?

"All of our volcano tour guides are qualified Mount Batur Trekking Association Guides. We have copies of our guide certifications on record to send anyone at any time."

How long has Expedition Bali Tours been around for?

"We're the oldest established tour operator in Kintamani. We started in 2012

How do I know if I will like the tour?

Features & Benefits

Sustainable Cities & Communities

United Nations Global Goal number 11. We give \$15 from every Volcano Explorer Tour goes to the Kintamani community. This goes towards local infrastructure including roads, education for farmers on the correct use of the land and more sustainable farming techniques, plus training all the guides in the region, not just our own guides.

The Best Qualified Guides

Our guides are local celebrities, everyone knows them because they're the best. They're qualified, certified, and they're English is great.

Custom Built 4x4

Our vehicle is purpose built for comfort, panoramic views, power, protection from the elements, whilst maintaining maximum fun and enjoyment. No other vehicle in Kintamani is purpose built for tourists.

Frozen Lava & Bats

Not only will you discover an incredible lava field that can only be described as "lunar", we're also the only tour operators that'll take you to see the Kintamani Bats. Unlike other bats that hide in the darkness, these bats are huddled together in the open on a cliff side and under a ledge which makes for great viewing and educating the kids.

Our Transfer Drivers

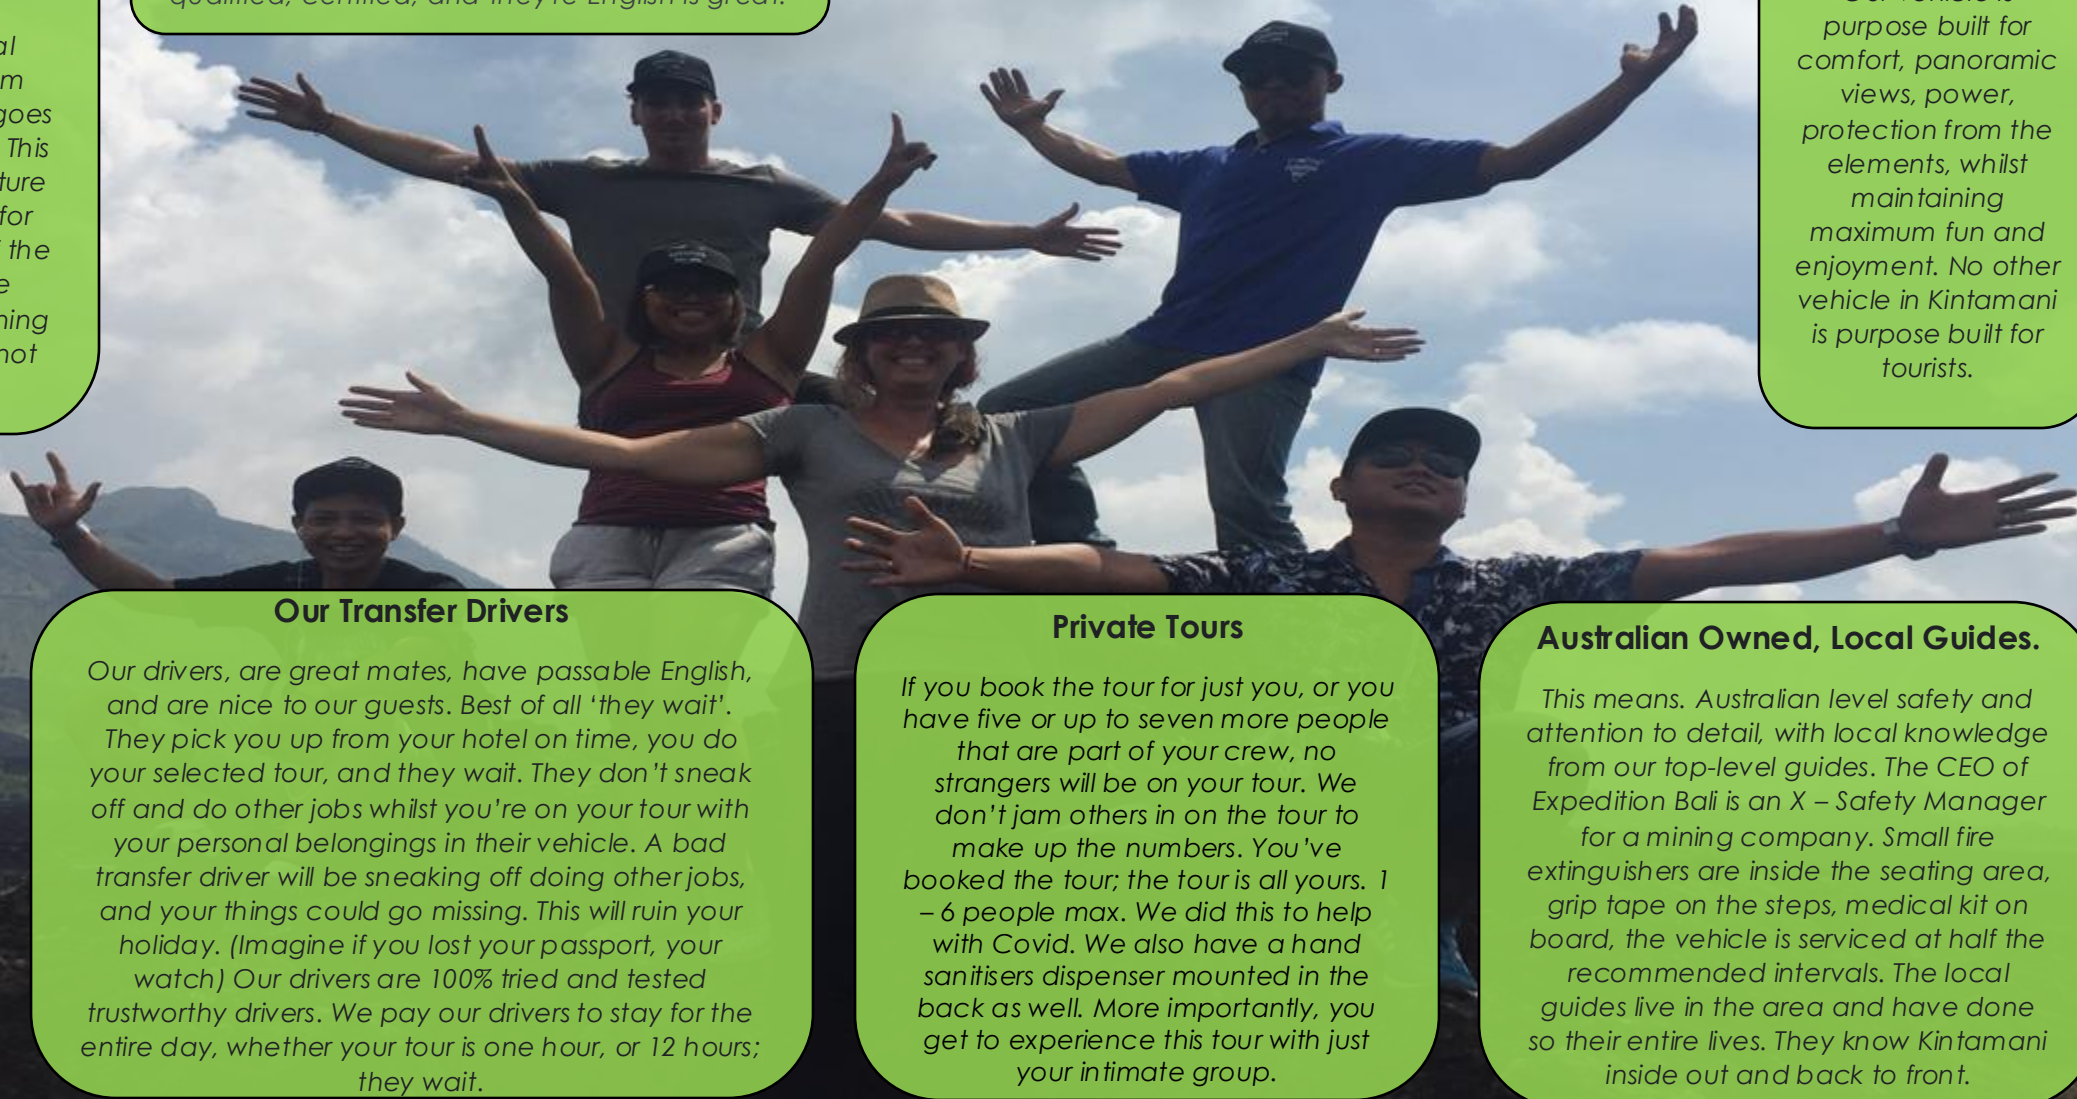

Our drivers, are great mates, have passable English, and are nice to our guests. Best of all 'they wait'. They pick you up from your hotel on time, you do your selected tour, and they wait. They don't sneak off and do other jobs whilst you're on your tour with your personal belongings in their vehicle. A bad transfer driver will be sneaking off doing other jobs, and your things could go missing. This will ruin your holiday. (Imagine if you lost your passport, your watch) Our drivers are 100% tried and tested trustworthy drivers. We pay our drivers to stay for the entire day, whether your tour is one hour, or 12 hours; they wait.

Private Tours

If you book the tour for just you, or you have five or up to seven more people that are part of your crew, no strangers will be on your tour. We don't jam others in on the tour to make up the numbers. You've booked the tour; the tour is all yours. 1 – 6 people max. We did this to help with Covid. We also have a hand sanitiser dispenser mounted in the back as well. More importantly, you get to experience this tour with just your intimate group.

Australian Owned, Local Guides.

This means. Australian level safety and attention to detail, with local knowledge from our top-level guides. The CEO of Expedition Bali is an X – Safety Manager for a mining company. Small fire extinguishers are inside the seating area, grip tape on the steps, medical kit on board, the vehicle is serviced at half the recommended intervals. The local guides live in the area and have done so their entire lives. They know Kintamani inside out and back to front.

"...We learned so much from our guide he was wonderful and not only answered all our questions but was so great with telling us the history and explaining the different types of lava. After that had come to an end we were taken to the natural hot springs which was stunning and had a delicious lunch before being driven back to our hotel. If you are thinking about booking a tour I highly recommend Expedition Bali ..." – **Jill L – Perth Western Australia**

My family had a great time checking out the amazing views and awesome sites of the local volcano.

"My family of five had a great time on the Volcano Explorer tour. We did the 4x4 ride through the site of the most recent eruption, rode to a great overlook, took a stop and checked out a lava tube (and went down into the dark), and got to play in the local hot springs for awhile before heading back to town. Our guide for the day, Ngurah Wesa was excellent. He was very personable and easy to get along with (and he speaks great English). Thank you Expedition Bali for giving our kids a great day to remember. It was the highlight of our trip to Bali." – **Drew M – Chiang Mai, Thailand**

3 x Bonus Reasons to book with Expedition Bali Tours

All of our tours have a small unique gift. For example, on this tour we give you a pair of EBT Designer Sunglasses. You know why? We do this more for practical reasons. Many of our guests leave their accommodation and set off on the adventure of a lifetime only to forget their sunnies. It can get bright out here on the lava fields so we created a memento you can keep and take with you back to your home country.

The other bonuses we do on this tour that not many others do is we take you to the bats that live out in the open on a cliff face and under a ledge. No other tour company does this. Speaking of what no other tour company does, this bonus is something awesome, we know that no one else is doing. We take you to a vantage point we only discovered weeks before the pandemic came to Bali in early 2020. From this vantage point you can see Mount Batur, Mount Abang, Mount Agung, Lake Batur, the Indian ocean, and across to Mount Rinjani on neighbouring Lombok Island.
