Welcome to DUNE Bali Dive Center!

Experience Excellence, Discover Your Path

Welcome to DUNE Bali Dive Center, your gateway to exceptional diving adventures and professional development in Bali. Established in 1996, our state-of-the-art facilities and experienced team are dedicated to providing unparalleled experiences and top-notch dive education.

Career Development Center (CDC): Achieve your diving dreams with our comprehensive PADI courses, from Open Water Diver to Instructor Development Courses (IDC). Our skilled instructors ensure you receive the best training and support.

Explore Bali's Underwater Wonders: Dive into Bali's vibrant marine life with our expert guides. Experience the thrill of swimming with manta rays and exploring colorful coral gardens.

Safari Excursions: Discover Bali's cultural heritage and stunning landscapes with our guided tours to hidden temples, terraced rice fields, and local markets.

Thank you for choosing DUNE Bali Dive Center. We look forward to providing you with unforgettable moments and professional growth opportunities.

Sincerely,

Cyril OBOJTEK

Managing Director Indonesia

Bali Map

Bali, a renowned diving destination in Indonesia, offers an array of captivating dive sites. Menjangan Island, located in the northwestern tip, is celebrated for its crystal-clear waters and vibrant marine life, making it part of the Bali Barat National Park. Tulamben, on the northeastern coast, features the famous USAT Liberty shipwreck, accessible to divers of all levels. South of Tulamben, Amed is known for its black sand beaches and colorful coral reefs, ideal for macro photography. On the southeastern coast, Padang Bai provides diverse dive sites like Blue Lagoon and Jepun, teeming with marine species. Sanur, near Denpasar, offers calm waters perfect for beginners. Off the southeastern coast lies Nusa Penida, famed for Manta Point and Crystal Bay, where divers can encounter manta rays and mola mola. Additionally, the Amed region offers excellent diving spots with rich marine biodiversity and serene underwater landscapes, while Nusa Penida remains a highlight for its thrilling dives and large pelagic encounters.

DUNE BALI, located in Sanur Kauh, Denpasar, facilitates snorkeling, scuba diving, and safari adventures, ensuring an unforgettable underwater experience.

Dive Sites

Tulamben

Home of the Legendary USAT Liberty Wreck

Tulamben

Tulamben, on Bali's northeastern coast, is famous for the USAT Liberty shipwreck, a popular dive site accessible to all levels. The wreck, covered in vibrant corals, is home to marine life such as trevally, barracuda, and bumphead parrotfish. Other dive spots in Tulamben include the Coral Garden, known for its colorful reefs and species like clownfish and octopus, and the Drop Off, a dramatic wall dive with gorgonian sea fans attracting reef sharks and jacks. Tulamben offers a diverse and exciting underwater experience, making it a must-visit for divers.

Bali Wonders with Dune Bali Land Tours

Join Dune Bali on this enriching land tour to experience the diverse natural beauty and cultural richness of Bali beyond the underwater world. Our land tour includes visits to some of the island's most iconic destinations:

Ubud

Explore the enchanting terraced rice fields of Ubud, surrounded by lush greenery and a tranquil atmosphere. Discover local artisan markets, ancient temples, and traditional dance performances.

Bedugul

Travel to the cool highlands of Bedugul and visit the serene Beratan Lake, home to the iconic Ulun Danu Beratan Temple. The picturesque Tamblingan Lake, surrounded by dense forests, offers perfect spots for relaxation and photography.

Mount Batur, Kintamani

Explore the majestic Mount Batur, an active volcano offering stunning views of the caldera lake and surrounding mountains. This area is ideal for hiking and adventure, providing breathtaking natural scenery.

Join us on this journey to explore Bali's cultural heritage, tranquil environments, and breathtaking landscapes beyond the underwater world.

Our Facilities

Dune Bali Dive Center provides luxurious facilities for an unforgettable diving experience in Bali's waters. Key amenities include:

WIFI

Stay connected with complimentary Free Wi-Fi throughout the dive center

Top-Quality Dive Equipment

Ensuring safety and comfort with the latest gear.

Professional PADI Dive Guides

Experienced and knowledgeable PADI-certified guides to enhance your diving adventure.

Boat & Bus

Well-equipped boats & bus for smooth and enjoyable transport to dive sites.

Training Programs

Comprehensive courses for all levels, from beginners to advanced divers.

Free Lunch

Delicious meals to fuel your underwater explorations.

Dune Bali's Dive Transfers

At Dune Bali, we ensure your dive trips are smooth and enjoyable with our dedicated transportation services.

Shuttle Buses for Dive Sites

For diving in Tulamben, Amed, Padang Bai, and Menjangan, we provide two shuttle buses, offering modern amenities for a comfortable ride.

Speed Boat

For Nusa Penida & Padang Bai trips, our exclusive speed boat departs from Sanur, ensuring a hassle-free and relaxing journey to this stunning dive destination.

Experience the best of Bali's underwater world with Dune Bali's premier transport options, making every dive trip memorable from start to finish.

DUNE Manta Speedboat

DUNE Touch : Connect with Bali's Culture

The Dune Touch brings our guests closer to Bali's vibrant local culture, creating a family-like atmosphere while diving. We believe diving should be more than just underwater exploration; it should foster meaningful connections. Our guests are introduced to traditional Balinese snacks and tropical fruits, offering a taste of Indonesia's rich flavors.

Through the Dune Touch, we ensure that every dive is an immersive experience into Bali's essence. Guests leave with not only wonderful diving memories but also a deep appreciation for Balinese traditions. Join us at Dune Bali, where every dive feels like coming home to a welcoming community.

Family-Like Atmosphere:

Experience a warm, welcoming environment that goes beyond diving.

Sustainable Practices on Our Dive Center

The commitments of Team DUNE reflect a strong determination to promote environmentally friendly practices and contribute to the preservation of the oceans. Here is a summary of the key points:

- **Waste Management**

We segregate waste on board to ensure proper disposal and recycling. Bins for different types of waste (plastics, metals, paper, organic) are provided in common areas.

- **Marine Conservation**

We educate our guests on the importance of protecting coral reefs and enforce a no-touch policy during dives. Our dive briefings include guidelines on how to interact responsibly with marine life.

- **Community Engagement**

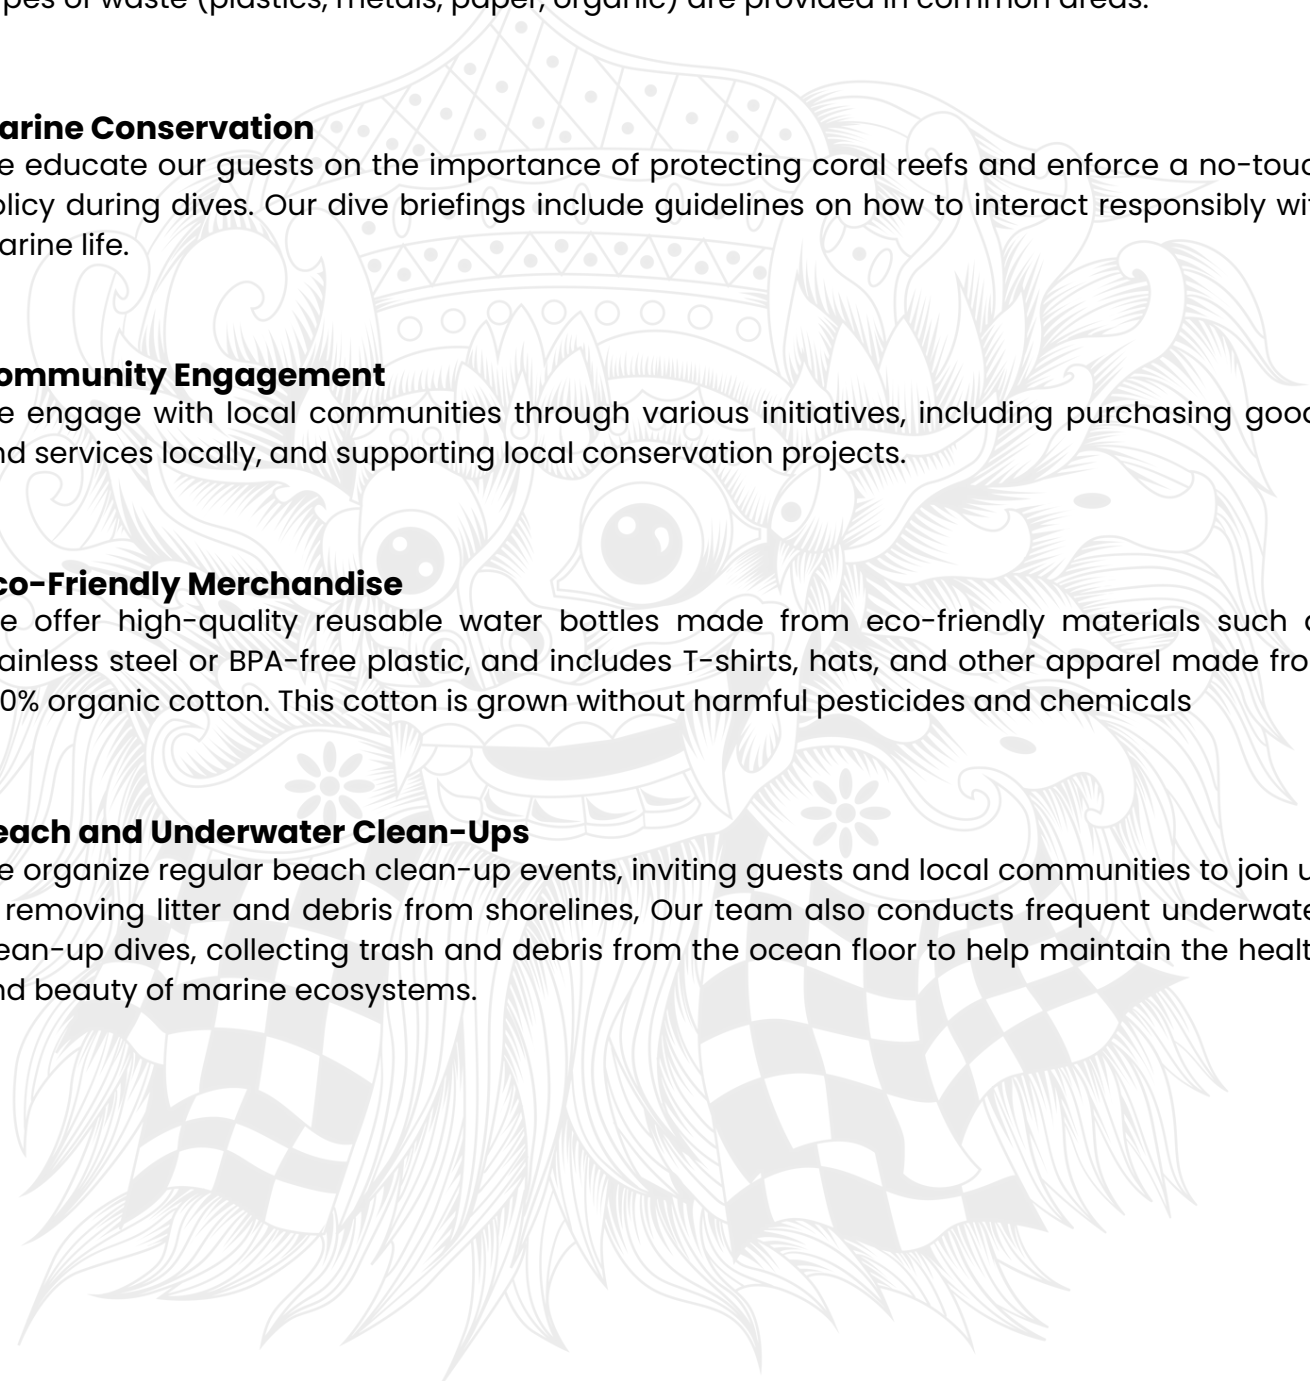

We engage with local communities through various initiatives, including purchasing goods and services locally, and supporting local conservation projects.

- **Eco-Friendly Merchandise**

We offer high-quality reusable water bottles made from eco-friendly materials such as stainless steel or BPA-free plastic, and includes T-shirts, hats, and other apparel made from 100% organic cotton. This cotton is grown without harmful pesticides and chemicals

- **Beach and Underwater Clean-Ups**

We organize regular beach clean-up events, inviting guests and local communities to join us in removing litter and debris from shorelines. Our team also conducts frequent underwater clean-up dives, collecting trash and debris from the ocean floor to help maintain the health and beauty of marine ecosystems.

Green Comitment

Our company is proud to have obtained the Manta Trust, Shark Education and Green Fins labels, testifying to our commitment to the environment with actions such as:

- Develop education programs for local communities
- Protect manta rays/modules through research, education, and collaboration
- Participate in beach and ocean cleanups
- Commit to maximizing buoy and non-anchor anchoring to preserve the coral reef.
- Collect data to help understand marine litter.
- Avoid all chemicals and toxic products that could enter the ocean from our boat.
- Learn more about the Sharks.

Our Partnerships:

"Sustainable Seas: Navigating Eco-Friendly Practices in Diving"

Conservation at Dune Bali

Dune Bali is committed to preserving the natural beauty of Bali through various conservation initiatives. We invite our clients to participate in actions that protect marine and coastal ecosystems.

1. Turtle Release Programs

We protect and release baby sea turtles into the wild, raising awareness about the importance of marine wildlife conservation.

2. Coral Transplantation Workshops

Our clients can participate in coral reef restoration by transplanting healthy corals into damaged areas, thereby promoting a healthy underwater ecosystem.

3. Mangrove Planting

We organize mangrove planting activities to restore coastal ecosystems, prevent erosion, and provide habitats for marine wildlife.

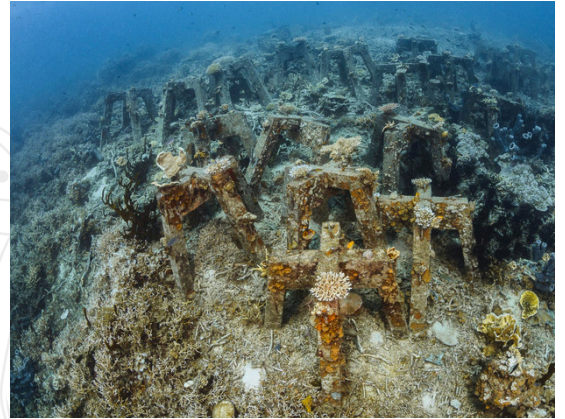

4. Beach Cleanup

Our beach cleanup activities aim to remove waste and plastics from Bali's shores, helping to protect the coastline and marine life from pollution.

5. Eco-Brick Workshop

Our eco-brick workshops teach participants how to recycle plastic waste into durable eco-bricks for construction projects, thereby contributing to waste reduction and sustainability.

The Sulubaaï Foundation is a non-profit organization dedicated to marine conservation and sustainable development. Established in 2012 by Fred and Valerie Jacq, the Sulubaaï Foundation is based in the Philippines, on a private island named Pangatalan in Palawan.

Goals & Mission

- Marine Ecosystem Conservation: Protecting marine biodiversity through conservation efforts and coral reef restoration.
- Sustainable Resource Management: Creating sustainable practices to support local communities.
- Education and Awareness: Promoting environmental conservation via educational programs and training.
- Scientific Research: Conducting research to understand marine ecosystems and address conservation issues.

Marine Protected Area

The Marine Protected Area (MPA) off Bali's southeast coast spans 20,057 hectares and includes Nusa Penida, Nusa Lembongan, and Nusa Ceningan. Home to 296 coral species and 576 reef fish species, it's renowned for its manta ray population.

Established in 2010 by the Klungkung District Government with support from the Coral Triangle Center (CTC), the MPA's management shifted to Bali Province in 2018. The Nusa Penida Management Unit oversees its zoning system and a 20-year management plan.

Dune Penida's active involvement helps preserve the area's biodiversity and natural beauty while supporting global marine conservation efforts.

Dive Adventure Schedule

- **7 am** : Pick up hotel (Kuta, Seminyak, Nusa Dua, Jimbaran, Sanur)
- **7.30 am** : Arrive at our dive center in Sanur to do administration, payment, fitting gear
- **8 am** : Departure to dive site (The distance traveled depends on the distance to the dive site. For Penida, we use a speedboat, whereas for Amed, Tulamben, Gili, and Padang Bai, we use a shuttle bus.)
- **9 am** : Depart from the dive site
- **10-11 am** : 1st dive
- **12 pm** : Lunch break
- **1-2 pm** : 2nd dive
- **3 pm** : Depart to Sanur (The distance traveled depends on the distance from the dive site.)
- **5-6 pm** : Arrive in Sanur and drop back hotel

This is just an example and can be modified at any time, based on the conditions.

Important Documents

We recommend using the Dune Connect application to expedite the check-in process on board.

If the **Dune Connect** application is not filled out, you must present the following documents to the cruise manager on board:

DIVE CERTIFICATE

- Your certification provides us with information about your training.

DIVE INSURANCE.

- In the event of an incident, we will be able to assist you best by having your insurance contact and policy number.

MEDICAL STATEMENT

- This is a requirement for individuals older than 45 years. It must be signed by a doctor, allowing you to participate in diving activities. Given that liveboard dives can sometimes be intense, we want to ensure everything goes smoothly.

LOG BOOK.

- We need to know your diving experience in order to adapt the itinerary and dive planning as effectively as possible.

LIABILITY RELEASE & ASSUMPTION OF RISK

**INTRODUCING
DUNE CONNECT**

Dune Connect, your buddy application who take care of facilitating the organization of your underwater activity.

**SAVE & SYNCHRONIZE YOUR
DIVER INFORMATION**

Hypothermia	
Signs & Symptoms	First Aid
<p>Mild Hypothermia:</p> <ul style="list-style-type: none">• Increased heart rate• Impaired coordination• Uncomfortably cold• Unable to concentrate• Shivering• Introversion• Decreased motor activity• Fatigue <p>Severe Hypothermia:</p> <ul style="list-style-type: none">• Loss of coordination• Confusion / Amnesia• Decreased heart rate• Shivering stops• Weakness• Drowsiness• Hallucination• Unconsciousness• Appearance of death	<p>Mild Hypothermia:</p> <ul style="list-style-type: none">• Dry the victim• Protect from the weather• Provide warm sweet drinks (no caffeine or alcohol)• Seek medical attention if no improvement• Cover head, apply heat to neck and armpits <p>Severe Hypothermia:</p> <ul style="list-style-type: none">• Call EMS• Handle carefully the victim• Lay down flat• Insulate the victim from cold environment• Provide CPR if unconscious• Provide O2• Do not expose to excessive heat

Missing Diver Procedure:

- Someone calls EMS while finding out where anyone last saw the missing diver
- Assign spotters to look in that area for bubbles and direct rescuers to the area
- Assign two skin divers to mark the area with buoys
- Try to determine if the missing diver may have left without telling anyone. Have someone looking for the diver's clothes etc.
- Assign qualified divers with scuba equipment and head to the area where the diver was seen last to begin an underwater search.
- Contact professional search team if no results: BPBD Bali +62361 245397

Emergency Action Plan
