

# Our care and attention

# **COUR KNOWLEDGE**

We live Spain in all aspects... we are Spain!! The *pasión* we feel for our country and the knowledge of it, is what makes us an experienced DMC team.

All our history reflected in each of our regions, all the amazing gastronomy which changes each hundred kilometers, our *Tapas and Pintxos*, our mountains and landscapes, being the country with more kilometers of beaches in Europe, the fun in each corner with the authentic music of *Flamenco*, *Chotis* or *Sardana* and our immense amount of castles and ancient cities with Roman, Arab and Estruscan monuments all over the country serves us to enjoy our job, Our Spain!

Bienvenidos a España!

# NORTH OF SPAIN 6

"The north of Spain is for me a paradise of lush landscapes, wild beaches and a special color. It is an area that brings me wonderful memories of when I was little, because there we spent family vacations where abundant and tasty food, filled our table. I can't forget the games through the forests of Asturias and the great beach afternoons in Cantabria, the Seafood of Galicia or the cultural activities of the Basque Country. It is the area where the *Pinchos* are based, which are delicious with a wonderful wine."

# BARCELONA 🗮

"It has its own identity marks and common to whole Spain, a region rich in culture, gastronomy, and nature. Barcelona, in particular, is possibly one of the most cosmopolitan cities in Spain and Europe. It is where I spent every summer, where I learned to ride a bike, swim in the pool and where I made friends with those who last all life."

# MADRID AND ŵ CENTRE OF SPAIN

"The city where I was born and where I've had the most amazing experiences in my life. Maybe the best memory of my childhood is when my father took us to snack on *La Suiza*, a chocolate shop next to the *Puerta del Sol*, where I had the richest cake I've ever tasted. And also Sundays walking in *Parque de El Retiro*, sailing the lake boats with my sister...

My city welcomes everyone with opened arms and what better than enjoying our city center, our *tascas* having nice *tapas*, our wonderful night life, the best Sport shows in the best locations? If you come to my city Madrid, at the end you will be saying "From Madrid to Heaven, and once there, a hole to glimpse at it."

# LAND OF DON QUIJOTE

"This is the land of the literary hero Don Quixote and its famous windmills, whose stories I remember so well during my childhood. This inland region of Spain will delight you for an original cultural visit with unique towns such as Toledo, my beautiful city, or Cuenca and archaeological remains from the Middle Ages and the Roman Empire."

# LEVANTE :

"I grew up enjoying the beaches along the Mediterranean coast. Many of them awarded every year with the blue flag and considered the best beaches in the world. You will find a whole range of different attractions in this region, including everything from large seaside cities like Valencia to enchanting fishing villages."

Joaquín Sosa, Senior Project Manager at Buzz DMC, has grandmother from Valencia

# ANDALUSIA 📀

"Art! To me, Andalusia is pure art! This is a land of culture, history, fairs, nature and excellent food, olive oil and wines. All of this is a very important part of our character, tradition and culture. The flowers on the balconies, the sound of the Spanish guitar, the smell of the olive tree and the orange blossom in the streets always reminds me of my childhood. The long beaches where I played as a child and I still visit... when I return to my land, I always recharge my energy!"

## BALEARIC **SLANDS**

"Baleares is synonymous of peace and tranquility, partying and fun, with beautiful small and hidden beaches. Where in my youth, I spent great moments with friends and family, diving, enjoying boat trips around the islands and baths in crystal clear waters. It was my first trip without my family with school, where I felt for the first time older and enjoyed the wonderful people and fun that the islands give you. With an historic culture and monuments all around, I had amazing moments all through my life!"

# **EXAMPLE 1 A CONTRACTION OF CONTRACT OF CONTRACT**

## CANARY ISLANDS

"Who doesn't want to go to the Canary Islands? All the islands are different but with something in common, the magnificent temperature all the year around!! Volcanoes, nature, beaches, cliffs, and one of the best carnivals in the world!!! Taste *papas con mojo* with a soft drink, the ones made by my grandparents are so delicious! Visit the *Jameo 's crabs*, visit "La Graciosa Island" by bike, hiking in La Palma or in El Teide and then a camel ride, roll through the dunes, or just relax at one of the resorts!"

## OUR OFFICES

Covering and operating in the entire Spanish territory, Buzz DMC has its head office in Madrid

X----X.

## MADRID

Madrid, the capital of Spain since 1562, is also the geographic center of the Iberian Peninsula. It is certainly a city of great and impressive monumentality, which among its highlights has a peculiar historical center, built at the time when the Habsburg dynasty reigned in Spain, hence the name of "The Madrid of the Austrias", and of course, the Prado Museum, one of the most important art galleries in the world. Surrounded by impressive cities, Alcala de Henares, El Escorial, Toledo, Cuenca, Aranjuez or Avila, Madrid is a destination full of cultural and active options.
