

World of Unique Experiences

About Atakule

Opening its doors back in 1989, Atakule featuring modern architecture, tower observation deck and panoramic city view, shortly became known not only as Ankara's first shopping mall but as an iconic landmark of the capital.

With Atakule GYO joining the Tarman Group in 2009, it underwent the reconstruction process and has been re-introduced to public based on the belief that Atakule was not merely a shopping mall but a cultural heritage, too.

Atakule, thoughtfully reconstructed to meet the needs of Ankara and its visitors—spanning social life, art, shopping and dining—was honored with the Sign of the City 2017 award.

Embracing the best of Turkey and of the world, Atakule continues to add value to the capital's gastro and art culture with its unique architecture and the vibrant vibe it adds to the capital.

Atakule is a pet-friendly facility. We welcome small-sized furry friends that can be comfortably carried on the owner's lap during your visit to Atakule.

Parking and Valet Service: Rest assured that your car is always safe at our parking lot and professional valet service. Simply enjoy your Atakule visit.
