HIGHLIGHTS

- **Lyons Will.** With vines first planted in 1996, this small vineyard of 5 acres has doubled in size since being acquired by Oliver Rapson and Renata Morello. On gentle, undulating countryside at an elevation of 550 metres above sea level, new plantings of riesling and gamay complement the original chardonnay and pinot noir vines. Enhancing the tasting would be cheese and biscuits.
- **Granite Hills.** The oldest operating vineyard in the region, their vines date back to 1970. The Riesling, Shiraz and sparkling in particular are highly sought after.
- **Hanging Rock Cafe.** Enjoy an alfresco style lunch, adjacent to the imposing Hanging Rock, a well known landmark that featured in the novel by Joan Lindsay, Picnic at Hanging Rock – about the mysterious disappearance of a group of local schoolgirls in 1900.
- **Hanging Rock Vineyard.** The region's largest producer, they source estate grown fruit as well as grapes from numerous regions and with that selection offer something for most tastes. Their flagship wine is the sparkling Macedon.
- **Hesket Estate.** Situated at 660 metres above sea level, this is a small family operation dedicated to nurturing the best possible fruit from their boutique vineyard. Apart from chardonnay and pinot noir, there's riesling, gewurztraminer and sparkling to complement the tasting.

Indicative times of 9:00am to 6:30pm apply.
